

FRIENDS AND LOVERS

Paul Newman, born: Jan 26, 1925

in relationship with

Joanne Woodward, born: Feb 27, 1930

Part 1. How you approach relationships in general

Strengths

[Mercury in conjunction with Venus] You love to talk and write, and you probably do so beautifully. Your sense of color, harmony, manners, and all that is artistic, is beyond reproach. You know quality, and people love to let you pick out art or arrange color schemes for them.

[Mercury in conjunction with Jupiter] You are a great problem-solver, and can always think of a way to do almost anything. Your friends know you to be fair, and your integrity is unquestionable. You may find yourself interested in legal matters, publishing, philosophical and religious subjects, and would make a good teacher or instructor. Scientific investigation would interest you.

[Venus in conjunction with Jupiter] Good things tend to come your way, and you could end up with a lot of money, property -- possessions of all kinds. You are by nature generous, and probably give as much as you get. There could be a love of travel and exploring, finding your own way through life. You tend to appreciate authority, your elders, and conservative values. Others will value you for your warmth and openness. You are quite fortunate.

[Mars in trine with Neptune] You are, from time to time, really inspired to the point of moving others with your enthusiasms. You exercise an almost hypnotic quality over those who listen in when your imagination takes over. Dreams, psychology, and all things occult and metaphysical are your especial province. You're never afraid to take the plunge when matters of idealism or imagination come to the fore. You feel and experience the unity of life -- that we are all in some way, one. Others sense this about you.

Challenges

[Mercury in opposition with Pluto] You may have a tendency to poke your nose into others' business. You can't resist, and yet you're often afraid of what you'll find. Skeletons in the closet and sensitive areas of people's lives both fascinate and terrify you. You have trouble just coming right out and dealing with a touchy subject. It puts you through too many changes. You would rather snoop around.

[Venus in opposition with Pluto] Power struggles are no stranger to you. You tend to put off confrontations until they build up and then explode, kind of like having your own built-in volcano. You probably have considerable emotional tension and a strong sexual drive. Your flair for secrecy could find you with more than one lover, several affairs.

Part 2. How you relate to Joanne Woodward

Strengths

[Sun in conjunction with Mercury] She has a way with words which you find flattering and interesting, since the subject is often you. She loves to talk to you and may also write you letters. You find her stimulating mentally, and communication is most often smooth.

[Sun in conjunction with Mars] You understand her emotions and like the way Joanne Woodward feels about life. She can really move you to take action and accomplish things. There could be a shared love of sports, even a competitive feeling. This could be a long and romantic relationship.

[Sun in trine with Jupiter] Joanne Woodward may be one of your most valuable assets and have a great influence on your career and life direction. Through her support you may succeed in finding solutions to many a problem. You work well together and would make good partners.

[Moon in conjunction with Sun] You are always 100% behind Joanne Woodward. You would make a great campaign manager, and this could also be a good business partnership. You can't help but be supportive of her needs, and she feels that she can always count on you.

[Moon in conjunction with Moon] There is real mutual support here. You tend to have similar emotions and are very understanding of each other's feelings. If anything there might be too much of a good thing, and you could get bogged down in the relationship. For the most part though, this is a very nice state of affairs.

[Mercury in conjunction with Saturn] Joanne Woodward may be a real help when it comes to disciplined thinking, mental organization, and study in general. You are able to talk about her problems easily. You are able to put into words situations in which she finds herself.

[Venus in conjunction with Saturn] You have a natural appreciation for her problems and are probably very understanding with her. You may love her sense of organization and self-discipline. You may be a trifle undemonstrative when you are around her, a little too sober perhaps.

[Mars in trine with Neptune] The two of you may have a strong interest in the arts, music, and film. This could be a business relationship. Your emotional rapport may have an almost otherworldly quality about it. You could be a very moving force as a team when it comes to matters pertaining to the imagination, psychology, metaphysics, etc.

Challenges

[Moon in square with Jupiter] Joanne Woodward may feel that she doesn't have your support when it comes to matters of career and life direction. There may be hard feelings. You may find the decisions she makes upsetting to you emotionally. Her basic philosophy of life can sometimes be at odds with the way you are feeling.

[Moon in opposition with Neptune] You won't support what you feel are unrealistic notions and fantasies on her part. Her escapism does nothing for you. You feel she should learn to be more down to earth and practical. There can be much disappointment, and possibly deception, with this combination.

[Mercury in square with Uranus] Her unconventional manner may irritate you. You may feel she is just being different for the sake of being different. There could be sharp words between you, or you may find it fruitless to discuss certain subjects with her.

[Mercury in opposition with Pluto] There may be some problems due to a lack of communication. There is an unwillingness on your part to discuss Joanne Woodward's changes (what she is going through). You may prefer not to comment on sensitive issues, instead of the constant rehash. The resulting confrontations may be hectic and intense.

[Venus in square with Uranus] You may not appreciate her sense of independence, always having to do something different and unusual. You don't like surprises. It may go against your own set of values and thus be a cause for dissension.

[Venus in opposition with Pluto] You can't appreciate her continual need for self-analysis and confrontation. She never seems happy unless she has reduced every meeting to its lowest common denominator. She may go against all that you hold dear, and drag you through scene after scene. A problem.

[Mars in square with Pluto] Power struggles are likely, as well as harsh feelings. Your drive and ambition may tend to ignore her need for confrontation and analysis. You may refuse to face sensitive issues. This is a very emotional, and possibly explosive, relationship.
